Why Choose Skeptron Services

- Experienced & Certified Marine Surveyors.
- Independent & Objective Evaluations.
- Compliance-Driven Approach aligned with Class, Flag & International Standards.
- Tailored Solutions for safe, efficient, and cost-effective operations.
- A proven commitment to Integrity, Safety & Client Satisfaction.

Our Services

At **Skeptron Services**, we provide a wide range of integrated solutions to support safe, reliable, and compliant operations in the marine, offshore, and energy industries. Our services are designed to ensure **operational integrity, safety, and sustainability**, while helping clients meet regulatory and international standards.

Marine & Offshore Services

1. Marine Asset Surveying

Our certified surveyors provide independent and objective evaluations to safeguard client investments and ensure compliance:

- Fit-for-Purpose Surveys
- On-Hire & Off-Hire Surveys
- Purchase & Pre-Purchase Surveys
- Condition & Damage Surveys
- Safety & Compliance Surveys
- Risk-Based Asset Assessments

2. QHSE Management & Compliance

We support organizations in implementing, monitoring, and improving quality, safety, and environmental performance:

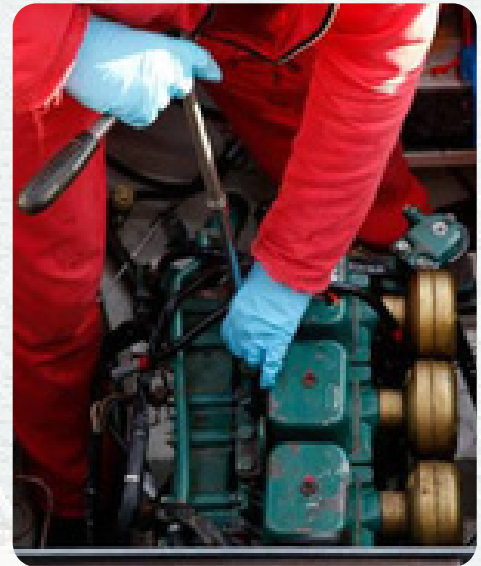

- Health, Safety, Environmental & Quality (HSEQ) Management Systems.
- Compliance Preparation for Class and Flag Audits.
- ISO Standards Implementation & Certification Support (ISO 9001, ISO 14001, ISO 45001, ISO 50001).
- Emergency Response & Contingency Planning.
- Spill Prevention, Waste Management & Pollution Control Solutions.

3. Audits & Assurance

Our independent assessments provide clarity and confidence for operational decision-making:

- Operational Assessment Audits – Reviewing asset and workforce readiness for safe, efficient operations.
- Safety & Quality Assurance Consultation – Independent gap analysis and safety assurance reviews.
- OVID & SIRE Inspections – Pre-inspection preparation and compliance support for Offshore Vessel Inspection Database (OVID) and OCIMF Ship Inspection Report Programme (SIRE).
- SUPO Inspections – Support vessel inspection readiness and compliance with industry protocols.
- Compliance Audits & Risk Assessments – Ensuring alignment with international standards, local regulations, and client requirements.
- Journey Management & Logistics Planning – Evaluating risks and ensuring safe, efficient workforce and cargo movement.

4. Planned Maintenance System (PMS) Solutions

We help organizations implement and optimize PMS to ensure asset reliability, compliance, and cost-effective operations:

- PMS setup, integration, and digitalization.
- Preventive maintenance scheduling.
- Class and Flag compliance alignment.
- Maintenance performance monitoring and reporting.

5. Training & Competency Development

We design and deliver practical training solutions that build capacity and improve workforce performance:

- Health, Safety & Environmental Training.
- Marine Operations & Asset Integrity Training.
- Emergency Response & Contingency Planning Exercises.
- Competency Development and Assurance Programs tailored to client requirements.

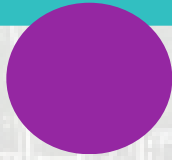

6. Sustainability & ESG Advisory

We support clients in achieving sustainable operations and meeting ESG targets:

- Environmental and Social Governance (ESG) Advisory Services.
- Energy Transition & Renewable Integration Support.
- Waste Management & Pollution Control.
- Carbon Reduction & Sustainability Initiatives.
